

Muss & Turner's Overly Simplified yet Purposefully Unique Wine & Beer List

Our Take on Wine-We love wine! It is one of the most elusive subjects in the world. But let's face it, wine is fermented grape juice that hopefully makes you feel warm and fuzzy and what really matters most is: does it taste good to you? We put all ratings, reputations and brand recognition aside. We do not look at any prices before tasting and trust our own palate and you should too. Our selection process is simple. 1. Does it smell and taste great? 2. Is it unique? 3. Does it taste better than it costs? Our list is designed for the person who enjoys exploring different wines from all over the world and at the same time looking for a great value.

M&T Customer's Choice – Voted as a great value by our customers at our Tuesday night tastings.

HMMM... BEEER

Our Take on Beer - In our opinion good beer has character in the way that it looks, smells, tastes and how or where it is made. It can be more complex with flavors than wine and often pairs better with food. We have chosen to sell the beer we enjoy ourselves and not try to be everything to everyone. Our goal is not to raise our nose in the air at those who enjoy popular domestic brew or light beers. We just want to be a comfortable place for people to explore beer and have fun with it while eating some tasty vittles. Cheers!
